

Section I - User Information

Faculty Name: HOLZ, Carsten Andreas
Current Academic Title: Professor
Department / Division: SOSC

Section II - Teaching activities during the report period

Courses taught in 2014

- (1) Data from the Student Feedback Questionnaire (SFQ) on courses taught in 2014 (from 01 Jan 2014 to 31 Dec 2014) has been imported from CELT's system. Designated staff members in respective departments / divisions will help to check and update the accuracy of the data. Both the SFQ mean score and standard deviation will be considered. SFQ data is important, but is not the only basis for the evaluation of teaching performance or broader contributions to education.
- (2) The course(s) listed below are tentatively uncategorized and **MUST be categorized before this report can be submitted successfully** via the system. There are three categories: (i) courses within the normal teaching load assigned by the department / division, (ii) courses for self-financed programs taught on off-load basis, for which you have to report the time spent in the Consulting Activities Report later on, or (iii) final year project and independent studies supervision, for which SFQ data is not available. To categorize an uncategorized course, please click "edit". To delete a course inappropriate to the report period, please click "delete".

Section IV - Services undertaken during the report period

University Services

(administrative assignments and committees served at the department, school and university level etc.)

Chair, Merit Review Committee -- University Service is determined by dean and division head. There is an element of circularity here: bosses appoint their cronies to key service positions, then can justify great salary increases by key service...

Professional Services
