

Section I - User Information

Faculty Name: HOLZ, Carsten Andreas
Current Academic Title: Professor
Department / Division: SOSOC

Section II - Teaching activities during the report period**Courses taught in 2015**

- (1) Data from the Student Feedback Questionnaire (SFQ) on courses taught in 2015 (from 01 Jan 2015 to 31 Dec 2015) has been imported from CELT's system. Designated staff members in respective departments / divisions will help to check and update the accuracy of the data. Both the SFQ mean score and standard deviation will be considered. SFQ data is important, but is not the only basis for the evaluation of teaching performance or broader contributions to education.
- (2) The course(s) listed below are tentatively uncategorized and **MUST be categorized before this report can be submitted successfully** via the system. There are three categories: (i) courses within the normal teaching load assigned by the department / division, (ii) courses for self-financed programs taught on off-load basis, for which you have to report the time spent in the Consulting Activities Report later on, or (iii) final year project and independent studies supervision, for which SFQ data is not available. To categorize an uncategorized course, please click "edit". To delete a course inappropriate to the report period, please click "delete".
